RPA and VCM prefixes indicate the projector is mounted in an inverted position. LCDA and UPC prefixes indicate the projector is mounted in a non-inverted position. Createch does not advise the projector to be inverted or non-inverted. The determination must be made by the user and/or manufacturer.

Always check dimensions of projector to ensure compatibility with projector space available in SMART-LIFTS. Chart is designed to reference available bracket only.

*Ship Weights are approximate.

N/A = Not available

This chart is for reference purposes only. Createch is constantly adding new mounts. For the most recently updated Cross-Reference Chart, visit www.createch.be or call Customer Service at +32 2 538 33 38

The symbol "+" identifies RPA-9000 compatibility (see Createch model numbers)
